Future We Want
Model United Nations

FWWMUN Youth Ambassador for the SDGs and the 2030 Agenda
2018 Resolution

1. <u>Emphasizes</u> on the importance of adopting the global goals as an identity, and to direct all energy towards attaining them;

2. <u>Declares accordingly</u> that local communities have a responsibility of recognizing problems in order to identify the lacking goals;

3. <u>Reaffirms</u> that education is key and commits to spreading awareness of all 17 goals, with the purpose of educating the largest possible number of individuals;

4. <u>Further proclaims</u> an appreciation to utilizing education for the implementation of innovative strategies to achieve the global goals;

5. <u>Further reminds</u> that transforming our world is only possible through a collaborative effort;

6. <u>Solemnly affirms</u> significance of devoting time and skills through providing workshops, trainings and internships to youth to promote a sustainable environment;

7. <u>Notes</u> the consequences of over-consumption and urges the implementation of day to day strategies to promote a culture of responsible consumption and achieving food security through:
a)   Investing in innovative eco-friendly and reusable materials,
b)   Committing to strategic planning for daily food intake, and
c)   Reducing waste generation through recycling;

8. <u>Further invites</u> public citizens to join global campaigns;

9. <u>Welcomes</u> the involvement of local governments and representatives in the global goals and emphasizes on the importance of having a combined effort between both public citizens and local governments to accomplish the global goals;

10. Further reminds of the fact that no development is sustainable without culture and thus calls upon members of the international community to be open minded, embrace the differences and empower others;

11. Supports the building and development of safe and sustainable communities through implementing strategies such as carpooling and bike;

12. Draws attention to the importance on focusing on the needs of undernourished groups and committing to meeting their needs in the most efficient way possible.
